CTEF ceramic installation program boosted by Raimondi donation

September 5, 2008

ARTICLE TOOLS

Email Print Reprints Share

Raimondi Tools USA has donated dozens of hand tools to the Ceramic Tile Education Foundation (CTEF) for use in its training facility for students enrolled in the CTEF Certified Ceramic Tile Installer program.

"Raimondi has always been very good to the CTEF with donations of tools and support of our programs," said Scott M. Carothers, executive director of CTEF. "They have really gone one step beyond to help our graduates be successful by offering the exclusive discount program," he added.

Graduates of the CTEF Certification Program receive a lifetime 15-percent discount on all Raimondi tool purchases.
